

بيان بالإنتاج العلمي لأعضاء هيئة التدريس لبرنامج العلوم الأساسية من سنة ٢٠٢٢ إلى سنة ٢٠٢٤

No.	Year	Research Title	Author
1	2024	Minimizing the production Cost of the Cam-Follower Profile Using Shape Optimization Techniques.	Dr. Raina Mostafa
2	2023	Some new soliton solutions of a semi-discrete fractional complex coupled dispersionless system.	Dr. Fatima El Beyale
3	2022	Micro-shear Bond Strength of Repair System to Different Hybrid Ceramic Materials Using Different Surface Treatment Protocols (In-Vitro study).	Dr. Raina Mostafa
4	2022	Modeling and simulation of hot direct extrusion for optimal product characteristics: Single and multi-response optimization approach.	Dr. Raina Mostafa
5	2022	Spectral properties of Nd ³⁺ -doped zinc-tellurite glasses with varied sintering time and temperatures.	Dr. Fatima El Beyale
